Pure as Ice Anti-Doping eLearning Certification Course

Ladies and Gentlemen,

We are pleased to announce that the revamped Pure as Ice Anti-Doping eLearning certification course is now available on the 'Clean Sport and Medical' section of the ISU Website (<https://isu.org/clean-sport>).

As of January 2021, Anti-Doping Education will be a mandatory International Standard under the World Anti-Doping (WADA) Code 2021. The key aspect of this requirement is to have a robust education plan, including effective Anti-Doping education, that is easily accessible to everyone.

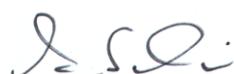

Skaters and others can follow the Pure as Ice Anti-Doping eLearning certification course to educate themselves on their Anti-Doping obligations and understand their responsibilities towards Clean Sport. The ISU asks ISU Members to assist in requesting everyone, especially their Skaters, to follow this course and get certified. Click [here](#) to register for the course. After registration, choose the Pure as Ice module to learn more about Clean Sport and get certified.

ISU Members need to do the following:

1. Ensure that all Skaters belonging to their National Federation sign up for the Pure as Ice course and complete the certification. (The ISU will be monitoring the number of Skaters who have signed up and completed the course.);
2. Add the links to the Pure as Ice eLearning course and the Clean Sport section that is currently located on the ISU website to the ISU Member's website;
3. ISU Members interested in translating the course into their local language are requested to contact antidoping@isu.ch;
4. Any feedback, suggestions, input, etc. in relation with this course can be directed to antidoping@isu.ch.

We look forward to your collaboration and assistance in working together towards attaining Clean Sport that is Pure as Ice.

With kind regards,

Fredi Schmid
Director General
